# We are Rotary Green Revolution – from ESRAG\* newsletter

By **Alfredo Valero**,  
Assistant Governor, D 2202

[Rotary Green Revolution](#) (RGR) is a global organization that brings together Rotarians from around the world to support Rotary clubs and districts in the fight to mitigate the effects of the climate emergency and accelerate the shift to a decarbonized energy model.

## Mission and vision

The project was born in Spain in July 2022 as a spin-off of [Rotary Forests](#) to provide technical assistance and other resources to a wider range of environmental projects undertaken by clubs and districts. It was designed with a completely cross-cutting approach, covering a broad spectrum of environmental protection projects and reinforcing all seven Rotary Areas of Focus. The mission was to bring about a revolution within District 2202 (as a pilot district) to help implement and galvanize environmental projects at a local level but with a global perspective.

During her year as Governor of District 2202, Ingrid Steinhoff was key to implementing Rotary Green Revolution's strategy in her district, making D2202 a pioneer through calculating its carbon footprint, designing actions to reduce the footprint, and offsetting the rest with reforestation projects in order to achieve NetZero.

Rotary Green Revolution is promoting the development of vertically-integrated programs and campaigns that link projects to achieve synergy. Our goal is to choose projects that are replicable and scalable at an international level.

The idea of "Green Revolution" arises from the need to:

- Help Rotarians and clubs to take action on impactful environmental protection campaigns that encourage Rotarians to be protagonists in the green revolution.
- Inspire Rotarians as well as individuals and organizations outside of Rotary to join our causes.
- Make people understand that environmental protection reinforces the other humanitarian work of Rotary International. For example, some environmental projects help to develop local economies. Others can prevent disease by increasing access to clean water or reducing air pollution.

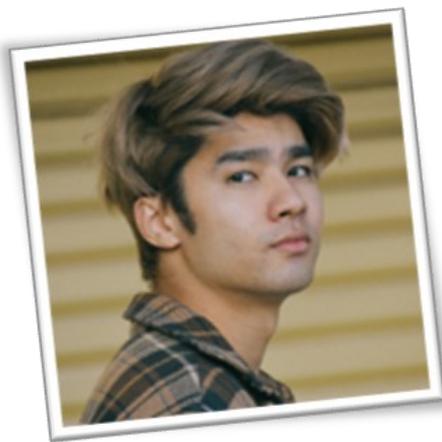

Realizing that reducing the effects of climate change and environmental degradation can help to promote peace, The Rotary Foundation will hold a conference on "Earth and Peace" in Avila (Spain) on April 27. Rotary Green Revolution and Rotary Forests have actively collaborated in the planning. The conference will feature several top-level speakers to explore how environmental protection can prevent conflicts. You can [register at this link](#).

## April 17 Guest Speaker

**R**adheya Jegatheva is an Oscar-qualified and AACTA-nominated filmmaker based in Perth, Australia. He is passionate about film, and the value of using film and animation in educational and social development contexts. He has spoken to thousands of school students over the years with an aim to inspire young people about getting into the arts, and his works have been used as an educational tool in schools and universities around the world.

Since graduating in 2021, Radheya has been involved in and performed animation and graphics work for various projects, including large-scale public installation artworks (through working for SAH studio), projects and films. These include Lynette Wallworth's Sundance-premiered work 'How to Live' (2022), the Dandjoo Darbalung Art Exhibition at Crown Metropol (2021), artwork projection piece 'Porcelain: Changing Views' (2022), ABC Documentary 'Walking Man' (2022), and many more.

## Photo story by Gail McCulloch

Chetan Ravjee, his daughter Diya Ravjee, our National Youth Science Forum recipient, and Youth Director Rotarian Joyce Smith

We were delighted to welcome our National Youth Science Forum (NYSF), recipient Diya Ravjee and her father Chetan Ravjee to our meeting.

Diya was very grateful for the opportunity to be part of this life changing experience.

She very eloquently told us about the 2024 NYSF Year 12 Program, she attended in Canberra from 5 to 20 January, with high school students from across the nation to live and breathe science and technology,

They were able to go behind the scenes and get hands-on at a wide range of different science and

technology facilities.

They met the real people who work in STEM and heard about the many different areas and career pathways they can explore in the jam-packed schedule.

The National Youth Science Forum (NYSF) is a not-for-profit organisation that runs a number of programs to encourage young people in their passion for science, technology, engineering, maths (STEM), thus empowering tomorrow's science, technology, engineering, and mathematics leaders.

If you would like to read more about The National Youth Science Forum (NYSF) here is their website, <https://www.nysf.edu.au/>

Rotarian Gail McCulloch being presented with her birthday cup cake from Rotarian Neil McKay

The Rotary Club of Attadale have a lovely tradition of presenting birthday cupcakes when it is your birthday.

Gail would like to thank all those who helped make her birthday so special.

# PORTCARE

*Rotarian John Sharp with Guest Speaker Charlie Ricciardo and Rotarian Neil McKay*

It was with great delight and pleasure that we welcomed Charlie Ricciardo of Port Care as Guest Speaker to our meeting.

For a number of years our Club has been involved with Port Care, giving donations and sourcing much needed specific donations, such as blankets. Some of our Rotarians are even more hands on supporting this organisation. in many ways.

PortCare was established in 2000 by C3 Church Fremantle to assist people who were struggling to make ends meet. They operate an Op Shop where customers can purchase clothes, household items, furniture and bric a brac for a fraction of the retail cost. A Low-Cost supermarket is also operated out of PortCare that stocks cheap food and groceries. Customers can also access free bread, fruit, and vegetables, that are regularly donated by local suppliers.

PortCare hosts a community lunch every Friday from 12pm -1:30pm in the foyer of C3 Church Fremantle, 230 Hampton Road, South Fremantle. Emergency relief is available to clients through their referral system. PortCare works closely alongside other agencies and organisations to provide support, retraining and pastoral care to members of the wider community

As a not-for-profit organisation any profits made through PortCare, are used to support community-based programs including School Breakfast Programs, Youth Programs, Indigenous Community Morning Teas to name a few.

If you are able to support Port Care, they are at 372 South Street O'Connor WA 6163

We have received a special request from Charlie at PortCare:

They are desperately short of bed linen, towels and any other similar goods in reasonable condition.

*“Applecross Rotary, as part of our risk management strategy for our activities at the Perth Makers Market and Jacaranda Festival, has made a bulk purchase of Hi-Vis Canvas Sun Hats, as shown in the image. These hats, which come with a digital print, are typically priced at approximately \$30 each. However, we are offering them to our members at a subsidized rate of \$15 each.*

*We greatly value the support we receive from your members and would like to extend this offer to those who are assisting with parking*

*The available sizes are as follows:*

1. SMALL (55cm)
2. MEDIUM (57cm)
3. LARGE (59cm)
4. XL (61cm)

*If any of your members are interested, please feel free to forward this email to them. They can contact me at [ray@applecrossrotary.org](mailto:ray@applecrossrotary.org) to express their interest”.*

*~ Ray Philp*

# Club Calendar

## APRIL

- 17 Dinner Meeting
