

President's Report

Volume 39 | No 30 | 4 May 2022

John Sharp
2021-22 President

A well-attended meeting that proved to be both entertaining & enjoyable. Bev obviously had a draw card with her Topic "How not to Travel" so as well as Della Smith-Rawlins & Kerry Scott, we were joined by Elaine Bennett & Charles Moffat as well as John & Kate McLean, who were invited by Valerie. We also had in attendance Jed Stafford, whom we sponsored for the 2022 National Youth Science Program, along with his mother Susan. Jed gave an insightful talk about his experience, which was part online and part face-to-face at various universities in WA (thanks to the hard borders that existed in WA at that time).

The program provided an opportunity to meet new people and make new friends and Jed is still in contact with all of those participants that were part of his cohort. It also provided an opportunity to look at the various opportunities in science that could be considered as a future career.

Whilst he agreed that the opportunity was Life Changing it also cemented his intention to progress his career through engineering.

Selwyn shared the fact that Santa Maria had declined our invitation to participate in the Four Way Speech contest; Bev updated her progress toward finding an alternate venue & I shared the program for the upcoming Zone 1 Presidents meeting scheduled for 10th May where we intend to create two sub committees. One will be to progress Lift The Lid, which is being led by Booragoon, and the other is a Zone Membership Committee which is being led by AG Kenn Williams. If any of you readers are interested in representing Attadale on either of those committees please contact me by 9th May.

Also I requested volunteers to fill spots on the Makers Market Roster. We need four volunteers for each session and I am trying my best to avoid anyone doing more than one session. You can see from the roster that some people have volunteered for more than one session and there are several members who have not responded. I need a response from everyone by **no later than Wednesday 11th May**. If your YES is highlighted Yellow in the Roster I have accepted that offer, so please lock it in your diaries; if your yes has not been highlighted yellow it is because I am awaiting other responses to see where they can fit in and then will accept your offer that fits with sharing the load.

SERVE TO CHANGE LIVES

Its not hard work. Four hours on a Sunday morning, collecting money or using an EFTPOS machine for entry to the parking, or directing cars to parking areas.

Bev shared the stories of a number of holidays that she had experienced from a very young age to more recently. All of those shared ended with some level of "Disaster". Maybe its those experiences that have taught Bev how to become a successful Travel Agent. The disasters included losing her very young brother during embarkation for the family's first cruise, buying a Jimny Jeep for a holiday in Horrocks Beach which almost ended in the Swan Valley because of an inability to change gear. This was quickly rectified by the supplier, with advice on how to change gear using a combination of a screwdriver stuck in the gear change mechanism at the same time as the gear was changed. Then there was the safari where Bev & Charles were trapped in their vehicle in the middle of a large herd of elephants for a couple of hours and the list goes on. I asked the question of Bev whether she & Charles had ever experienced a holiday that did not include a disaster and her response was a very hesitantNo !!
