Meeting Monday February 4

President Ian was delighted to welcome everyone back for our first meeting of the year. He was pleased to introduce our guest speakers Brooke Castelli and Lauren Stacy from the Leukaemia Foundation.

National Youth Science Forum (NYSF)

Over the years the **Rotary Club of Attadale** has been very proud to endorse the application of outstanding students to attend the NYSF Year 12 Program.

The National Youth Science Forum (NYSF) is a not-for-profit organisation that runs a number of residential programs to encourage young people in their passion for science.

On their return, the students have come to speak to our meeting and share their experience at the NYSF. They have all been very grateful for the opportunity to attend and without exception they found the experiences amazing. Often it has enabled them to choose an area they would like to study at university.

This year one of our Rotarians, **Patricia Robertson**, attended as a volunteer. They stay onsite throughout each program to provide pastoral care and first aid, and also support the students, ensuring that the participants and Student Staff have a safe, happy and healthy program.

Patricia spoke to our meeting about her time helping to care for the students and about the great activities and opportunities that the students experienced. She thoroughly enjoyed the opportunity of being part of this great program.

The Leukaemia Foundation is the only national charity dedicated to helping those with leukaemia, lymphoma, myeloma and related blood disorders survive and then live a better quality of life.

Each year, the Leukaemia Foundation helps more than 750 families from regional and rural Australia by providing free accommodation in our capital cities so they can access life-saving treatment at major hospitals.

Their transport service also helps thousands get to and from medical appointments, driving more than one million kilometres each year to ensure people get the medicines they need to beat their blood cancer.

Thanks to its supporters, the Leukaemia Foundation is also able to provide counselling, comprehensive information, education and support programs and financial assistance to help the 60,000 Australians who are currently living with a blood cancer.

They are committed to supporting initiatives and research that improve health outcomes for blood cancer patients, including improved access to new drugs that may be more effective than those currently available.

The Leukaemia Foundation depends on donations and support from the community. They run a number of fund-raising events, the World's Greatest Shave and Light the Night being two of them.
